## What investment services and advice can you provide me?

---

We offer investment advisory services to retail clients, including financial planning and portfolio management to individuals, donor advised funds and trusts. **Accounts:** We service retail non-qualified and qualified accounts as well as all manner of institutional accounts. **Investments:** We use mutual funds, exchange traded funds, stocks, and bonds to construct portfolios. **Monitoring:** We monitor portfolios and securities in accounts on an ongoing basis. We also meet with you at least annually depending on your needs. **Investment Authority:** We provide our services on a perpetual discretionary basis. We execute investment recommendations and specific transactions, in accordance with your investment objectives, without your prior approval, based upon discretionary account management status. Our engagement will continue until you notify us otherwise in writing. **Limited Investment Offerings:** We do not make available or offer advice with respect to proprietary products nor to a strictly limited menu of products or types of investments. **Account Minimums and Other Requirements:** We accept clients with a minimum of \$1,000,000 of investible assets. Assets of family members are aggregated for purposes of meeting this minimum. We may accept a client with a lower minimum if they are likely to meet our minimum within 2 years.

### Conversation Starters

- *Given my financial situation, should I choose an investment advisory service? Why or why not?*
- *How will you choose investments to recommend to me?*
- *What is your relevant experience, including your licenses, education, and other qualifications? What do these qualifications mean?*

## What fees will I pay?

---

You will pay an ongoing asset-based fee. This fee will be collected at the beginning of each quarter and is calculated as a percentage of the value of the cash and investments in your account[s] that we manage.

**Conflicts of Interest:** The more assets in your advisory account, the more you will pay in advisory fees, and we, therefore, have an incentive to encourage you to increase the assets in your account. **Other Fees and Costs:** In addition to our advisory fee, you will also be responsible for custodian fees, account maintenance fees, fees related to mutual funds, and other transactional fees.

***You will pay fees and costs whether you make or lose money on your investments. Fees and costs will reduce any amount of money you make on your investments over time. Please make sure you understand what fees and costs you are paying.***

For more detailed information on our fees, please see Item 5 – Fees and Compensation of our Form ADV Part 2A which is available at <https://adviserinfo.sec.gov/firm/summary/119679>

### Conversation Starters

- *Help me understand how these fees and costs might affect my investments. If I give you \$10,000 to invest, how much will go to fees and costs, and how much will be invested for me?*

***What Are Your Legal Obligations to Me When Acting as My Investment Adviser? How Else Does Your Firm Make Money and What Conflicts of Interest Do You Have?***

**When we act as your investment adviser**, we have to act in your best interest and not put our interests ahead of yours. At the same time, the way we make money creates some conflicts with your interests. You should understand and ask us about these conflicts because they can affect the investment advice we provide you. Here are some examples to help you understand what this means: We will recommend that you open your account with a specific custodian, where we have an institutional relationship and receive economic benefits. However, you ultimately decide where to open your accounts. Choosing a different custodian may result in the loss of quality of service and/or ability to obtain favorable prices. We have a financial incentive to recommend that you roll over retirement plan assets into an IRA we manage; we will educate you on your options and the fees and benefits associated with each choice and then allow you to choose which you feel is in your best interest.

***How Do Your Financial Professionals Make Money?***

Our financial professionals earn a salary and bonus and participate in the profits of the firm as a whole. This means financial professionals have an incentive to increase the asset size in the relationship or solicit new business, taking time away from the day-to-day servicing of current clients.
